The One Minute Big Picture Perspective On A Million Dollars

"When your business is numero uno in a growing market you're on a magic carpet ride."

~Perry Marshall

"Set insanely BIG goals!"

~Geoff Dodd

"Money follows attention." and, "you can 10X your goal, effort, spending, network, and what you look at ..."

~Grant Cardone

You are free

- to give this little e-Book away freely to hundreds and thousands of people
- to dream BIG, set your own personal goals and to start striving immediately
- to learn how to promote yourself and your business widely across The Internet
- to realize that no one can guarantee your specific income level (or millionaire-ship).
- To continue reading with ultra-close attention

What is your power?

Your power is your positive mindset working with a laser-like FOCUS. This means you'll continuously return in the flow of positive thinking and positive expectancy. You will expect to reach out, *stretch yourself* and your abilities, as you face challenges. It becomes your muscle memory after some months of stretching, testing, learning and achieving. You've got this. The future is exciting because you've realized now that the bigger the commitment you make, the bigger is your future SUCCESS.

I want to tell you a secret

Here's a secret that has been driving me for the past ten years: When you focus on something, it enlarges in your mind and begins to expand and draw closer to you. It excludes everything else! It's almost a kind of magnetism. Your mind can become magnetic like this towards the flow of money.

Listen closely, because this is truly amazing: whether you set a goal to get \$100 or \$100,000 or one million dollars, or ten million or a hundred million dollars – IT'S ALL THE SAME GAME -

It is your commitment that counts, as you ramp up to 10X your goal, your effort, your investment, social network and the bigger picture you're looking at. Multiply these things. Systems of people are greater than individual skills.

Reverse Engineering

How many sales would you need to make \$2,740 each day? 100 sales of a \$27.40 e-Book? Or just ten sales of a \$274 product. Or maybe one sale of a \$2,740 high ticket training course. Each one of these possibilities would score you one million dollars per year. Breaking it down like this with simple arithmetic shows that it's not as hard to do as you imagined.
